

## Product Information

### Ribonuclease A from bovine pancreas, $\geq 70$ KU/mg

**Cat. No.:** X23-06-YM101

**Size:** 10 mg; 50 mg; 200 mg; 500 mg

**Enzyme Commission Number:** 3.1.27.5

**NACRES:** NA.53

**Synonym:** RNase; Ribonucleinase

**This product is for research use only and is not intended for diagnostic use.**

#### Product Information

<b>Description</b>	Ribonuclease A from bovine pancreas is responsible for cleaving the phosphodiester bonds of single-strand RNA after pyrimidine nucleotides.
<b>Molecular Weight</b>	13.7 kDa
<b>Source</b>	Bovine pancreas
<b>Form</b>	Lyophilized powder
<b>Applications</b>	Ribonuclease A from bovine pancreas can be used to remove RNA from DNA plasmid and genomic DNA preparations and protein samples.
<b>Storage</b>	Store at -20°C.
