

Product Information

Ribonuclease A from bovine pancreas, ≥ 50 KU/mg

Cat. No.: X23-06-YM102

Size: 100 mg; 200 mg; 500 mg

Enzyme Commission Number: 3.1.27.5

NACRES: NA.53

Synonym: RNase; Ribonucleinase

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Ribonuclease A from bovine pancreas is responsible for cleaving the phosphodiester bonds of single-strand RNA after pyrimidine nucleotides.
Molecular Weight	13.7 kDa
Source	Bovine pancreas
Form	Powder
Applications	Ribonuclease A from bovine pancreas can be used to remove RNA from DNA plasmid and genomic DNA preparations and protein samples.
Storage	Store at -20°C.
