

## Product Information

### Xylanase from *Trichoderma Viride*

**Cat. No.:** X23-06-YM116

**Size:** 250 U; 1 KU; 5 KU

**Enzyme Commission Number:** 3.2.1.8

**NACRES:** NA.54

**Synonym:** *Endo*-(1→4)-β-xylan 4-xylanohydrolase; 4-Beta-D-xylan xylanohydrolase

**This product is for research use only and is not intended for diagnostic use.**

#### Product Information

<b>Description</b>	Xylanase from <i>Trichoderma viride</i> belongs to hydrolase that attacks hemicellulose to give rise to a mixture of xylooligosaccharides (XOSs) of various sizes.
<b>Molecular Weight</b>	22 kDa
<b>Source</b>	<i>Trichoderma Viride</i>
<b>Form</b>	Lyophilized powder
<b>Applications</b>	Xylanase from <i>Trichoderma Viride</i> can be used in carbohydrate research and the food industry.
<b>Storage</b>	Store at 4°C.
