

## Product Information

### Pullulanase

**Cat. No.:** X23-06-YM127

**Size:** 100 mL; 200 mL; 500 mL

**Enzyme Commission Number:** 3.2.1.41

**NACRES:** NA.54

**Synonym:** Amylopectin 6-glucanohydrolase

**This product is for research use only and is not intended for diagnostic use.**

### Product Information

<b>Description</b>	Pullulanase is a glycosidase that plays a key role in hydrolyzing $\alpha$ -1,6-glycosidic bonds in starch to form amylose.
<b>Form</b>	Liquid
<b>Applications</b>	Pullulanase is useful for the production of low-calorie food such as a starch replacement.
