

## Product Information

### Agarase, 0.5 U/ $\mu$ L

**Cat. No.:** X23-06-YM149

**Size:** 1 KU; 2 KU; 5 KU

**Enzyme Commission Number:** 3.2.1.81

**NACRES:** NA.26

**Synonym:**  $\beta$ -Agarase; Agarose 4-glycanohydrolase

**This product is for research use only and is not intended for diagnostic use.**

#### Product Information

<b>Description</b>	Agarase is responsible for cleaving the core of agarose polysaccharides into new agar oligosaccharides.
<b>Form</b>	Lyophilized powder
<b>Applications</b>	Agarase can be used to recover DNA or RNA fragments from low-melting-point agarose for amplification, cloning, or sequencing.
<b>Storage</b>	Store at 4°C.
