

Product Information

Neuraminidase from recombinant mammalian cell

Cat. No.: X23-06-YM152

Size: 20 µg; 100 µg; 200 µg

Enzyme Commission Number: 3.2.1.18

NACRES: NA.54

Synonym: Acyl-neuraminyl hydrolase; Receptor-destroying enzyme; Sialidase

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Neuraminidase from recombinant mammalian cell is a hydrolase that promotes the release of influenza virus from infected cells and promotes virus transmission.
Molecular Weight	70.7 kDa
Source	Recombinant mammalian cell
Form	Liquid
Purity	≥90%, determined by SDS-PAGE.
Applications	Neuraminidase from recombinant mammalian cell can be used in studies on the effect of bile salts on the hydrolysis of neuraminidase.
Storage	Store at -20°C.
