

Product Information

N-Acetyl beta-D-glucosaminidase from recombinant *E. coli*

Cat. No.: X23-06-YM165

Size: 10 µg; 50 µg; 200 µg

Synonym: NAG

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	<i>N</i> -Acetyl beta-D-glucosaminidase from recombinant <i>E. coli</i> plays a key role in targeting and hydrolyzing oligosaccharides containing chin.
Molecular Weight	27.8 kDa
Source	Recombinant <i>E. coli</i>
Form	Lyophilized powder
Purity	≥95%
Applications	<i>N</i> -Acetyl beta-D-glucosaminidase from recombinant <i>E. coli</i> is useful for the investigation of ELISA, Western Blot, immunoprecipitation, and SDS-PAGE.
Storage	Store at -80°C.
