

Product Information

Heparinase I from *Flavobacterium heparinum* for EP method

Cat. No.: X23-06-YM231

Size: 0.1 IU; 0.2 IU; 0.5 IU

Enzyme Commission Number: 4.2.2.7

Synonym: Heparin lyase I

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Heparinase I from <i>Flavobacterium heparinum</i> for EP Method is responsible for cleaving heparin to produce a lesser extent heparan sulfate.
Molecular Weight	42.8 kDa
Source	<i>Flavobacterium heparinum</i>
Purity	≥ 99%
Applications	Heparinase I from <i>Flavobacterium heparinum</i> for EP method can be used for heparin analysis and coagulation testing.
