

Product Information

T antigen O-glycan-Thr-Fmoc

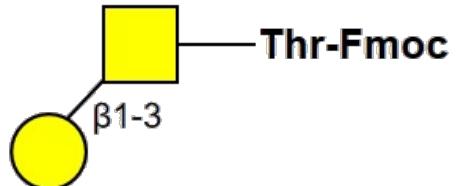

Cat. No.: X23-10-YW193

Size: 1 mg; 5 mg; 10 mg; 50 mg; 100 mg

CAS Number: 286389-68-2

Synonym: Galactose- β -(1-3)-GalNAc; Core 1; T antigen; TF antigen;

Gal β (1-3)GalNAc

This product is for research use only and is not intended for diagnostic use.

Product Information

Molecular Weight	706.7
Molecular Formula	C ₃₃ H ₄₂ N ₂ O ₁₅
Form	Solid
Purity	>90%, determined by HPLC.
Applications	Thr-linked T antigen (core 1) O-glycan is a glycoside amino acid with Fmoc protecting group. And it can be used as a valuable tool for understanding cellular processes and designing therapeutic interventions, and also can be used in SPPS.
Storage	Store at -20°C.
