

Product Information

SSEA-4 (d20:1/16:0)

Cat. No.: X23-11-ZQ349

Size: 10 mg; 100 mg; 500 mg; 1 g; 10 g

Synonym: [Neu5Ac α (2,3)]Gal β (1-3)GalNAc β (1-3)Gal α (1-4)Gal β (1-4)Glc β -ceramide

This product is for research use only and is not intended for diagnostic use.

Product Information

Molecular Weight	1708.98
Molecular Formula	C ₇₉ H ₁₄₁ N ₃ O ₃₆
Form	Powder
Applications	SSEA-4 (d20:1/16:0) is a glycolipid subtype that can be used as a validated standard for the study of intracellular glycolipid levels.
Storage	Store at -20°C.
