

## Product Information

### Fish lipopolysaccharide (LPS) ELISA kit

**Cat. No.:** X23-10-YM143

**Size:** 48T; 96T

**Synonym:** Fish LPS ELISA kit

**This product is for research use only and is not intended for diagnostic use.**

#### Product Information

<b>Description</b>	Fish lipopolysaccharide (LPS) ELISA kit, an enzyme-linked immunosorbent assay, has the ability to detect levels of fish LPS as low as 0.1 pg/mL.
<b>ELISA Type</b>	Sandwich ELISA kit
<b>Assay Type</b>	Sandwich ELISA kit
<b>Assay Target</b>	LPS
<b>Species Reactivity</b>	Fish
<b>Components</b>	MicroELISA stripplate; Standard; Sample diluent; HRP-Conjugate reagent; Wash solution; Chromogen solution A; Chromogen solution B; Stop dolution; Closure plate membrane; User manual; Sealed bags
<b>Sample Type</b>	Undiluted original fish body fluids, tissue homogenates, secretions or feces samples
<b>Sensitivity</b>	0.1 pg/mL
<b>Precision (Intra-Assay)</b>	CV <15%
<b>Precision (Inter-Assay)</b>	CV <15%
<b>Applications</b>	Fish lipopolysaccharide (LPS) ELISA kit can be used to measure the level of fish LPS in undiluted original fish body fluids, tissue homogenate, secretions or feces samples.
<b>Storage</b>	Store at 2-8°C.
