

Product Information

Bacteria lipopolysaccharide (LPS) ELISA kit

Cat. No.: X23-10-YM150

Size: 96T; 96T*2

Synonym: Bacteria LPS ELISA kit

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Bacteria lipopolysaccharide (LPS) ELISA kit is an enzyme-linked immunosorbent assay for the quantitative detection of bacteria LPS.
ELISA Type	Competitive ELISA kit
Assay Type	Competitive ELISA kit
Assay Target	LPS
Species Reactivity	Bacteria
Sample Type	Biological fluid samples
Detection Method	Colorimetric, OD 450 nm
Applications	Bacteria lipopolysaccharide (LPS) ELISA kit can be used to measure the level of bacteria LPS in biological fluid samples.
Storage	Store at 2-8°C.
