

Product Information

Hydroxyethyl cellulose, 3400-5000 mPa.s

Cat. No.: X24-04-XQ045

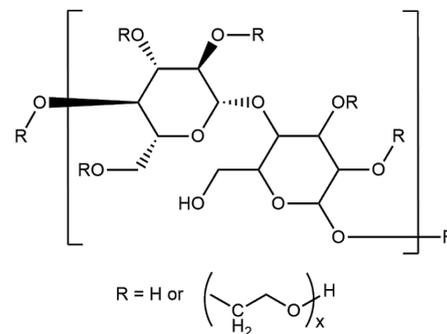

Size: 250 g; 1 kg; 5 kg

MDL: MFCD00072770

CAS Number: 9004-62-0

Synonym: 9004-64-2; HC

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Hydroxyethyl cellulose is a high-quality product with a viscosity of 3400-5000 mPa.s.
Viscosity	3400-5000 mPa.s
Form	White powder
Applications	Hydroxyethyl cellulose with the viscosity of 3400-5000 mPa.s can be used for the study in personal care products due to its conditioning and moisture retention abilities.
Storage	Store at room temperature.
