

Product Information

Chitosan quaternary ammonium salt, DS 98%

Cat. No.: X24-04-XQ199

Size: 25 g; 100 g; 500 g; 2.5 kg

Synonym: Chitosan quaternary; Chitosan quaternary ammonium salt

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Chitosan quaternary ammonium salt is a chitosan derivative with excellent solubility in water and potential applications in drug delivery. Chitosan quaternary ammonium salt is a high-quality product with a degree of substitution of 98%.
Degree of Substitution	0.98
Form	Off-white or slightly yellow granular powder
Applications	Chitosan quaternary ammonium salt, DS 98% with the degree of substitution of 0.98 can be used for the study of in the development of controlled-release drug systems.
Storage	Store at room temperature.
