

Product Information

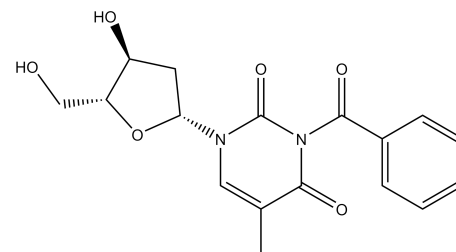

Base protected nucleoside 2'-dT(Bz)

Cat. No.: X24-08-LY159

Size: 5 mg; 10 mg; 25 mg; 100 mg

Synonym: N6-Benzoyl-2'-deoxythymine

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	2'-dT(Bz) is a base protected nucleoside contains a benzoyl functional group attached to a deoxythymidine nucleoside.
Molecular Weight	346.34
Molecular Formula	C ₁₇ H ₁₈ N ₂ O ₆
Form	White to off-white powder
Purity	≥98%, determined by HPLC.
Applications	2'-dT(Bz) is widely used as a reagent for the study of DNA modification and synthesis.
Storage	Store at 4°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
