

## Product Information

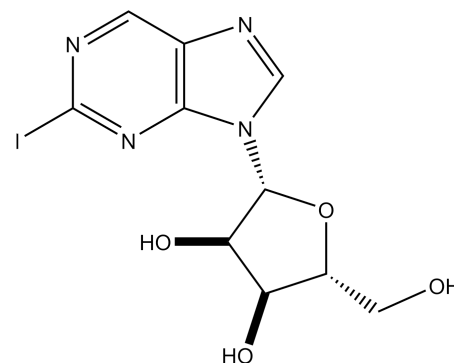

### Halogen nucleoside 2-I-purine-ribose

**Cat. No.:** X24-08-LY170

**Size:** 5 mg; 10 mg; 25 mg; 100 mg

**Synonym:** 2-Iodo-purine-ribose

**This product is for research use only and is not intended for diagnostic use.**

### Product Information

**Description** 2-I-Purine-ribose is a nucleoside analog composed of 2-iodopurine and ribose.

**Molecular Weight** 378.12

**Molecular Formula** C<sub>10</sub>H<sub>11</sub>IN<sub>4</sub>O<sub>4</sub>

**Form** Powder

**Purity** ≥95%

**Applications** 2-I-Purine-ribose can be used as a raw material for drug discovery.

**Storage** Store at -20°C.

### Safety Information

**Personal Protective Equipment** Gloves, eyeshields, N95 mask
