

Product Information

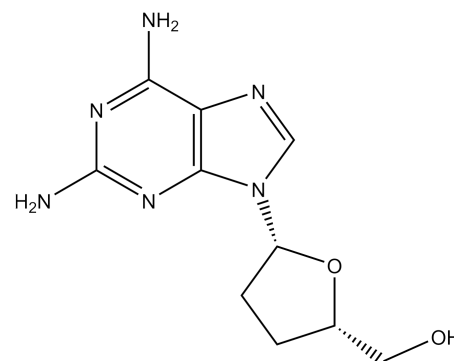

Dideoxynucleoside 2-NH₂-ddA

Cat. No.: X24-08-LY176

Size: 50 mg; 100 mg; 250 mg; 500 mg

Synonym: 2-NH₂-Dideoxyadenosine

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	2-NH ₂ -ddA is a deoxyadenosine analog containing an amino group.
Molecular Weight	250.26
Molecular Formula	C ₁₀ H ₁₄ N ₆ O ₂
Form	Powder
Purity	≥95%
Applications	2-NH ₂ -ddA can be used for RNA synthesis and translation of viral proteins.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
