

Product Information

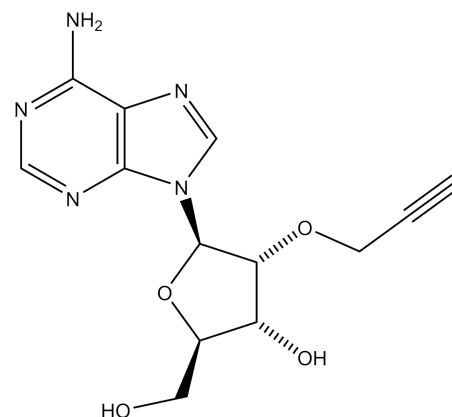

Modified nucleoside 2'-O-propargyl-Ar

Cat. No.: X24-08-LY183

Size: 5 mg; 10 mg; 25 mg; 100 mg

Synonym: 2'-O-Propargyl-adenosine

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	2'-O-Propargyl-Ar is a modified adenosine molecule which has the 2'-position replaced by a propargyl group.
Molecular Weight	305.29
Molecular Formula	C ₁₃ H ₁₅ N ₅ O ₄
Form	Powder
Purity	≥95%
Applications	2'-O-Propargyl-Ar can be used as a biomarker for labeling RNA or DNA molecules.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
