

Product Information

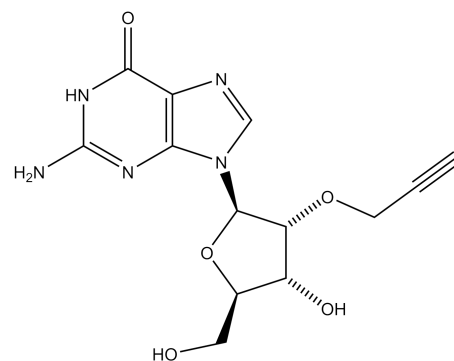

Modified nucleoside 2'-O-propargyl-Gr

Cat. No.: X24-08-LY185

Size: 5 mg; 10 mg; 25 mg; 100 mg

Synonym: 2'-O-Propargyl-guanosine

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	2'-O-Propargyl-Gr is a modified nucleoside molecule with a unique chemical structure and properties.
Molecular Weight	321.29
Molecular Formula	C ₁₃ H ₁₅ N ₅ O ₅
Form	Powder
Purity	≥95%
Applications	2'-O-Propargyl-Gr can be used to label RNA or DNA for studying processes such as nucleic acid synthesis, degradation, modification and interaction.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
