

Product Information

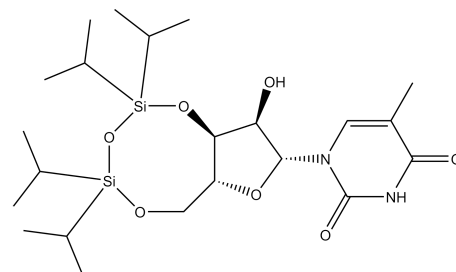

Protected nucleoside 3',5'-TIPDS-5-Me-Ur

Cat. No.: X24-08-LY193

Size: 5 mg; 10 mg; 25 mg; 100 mg

Synonym: 3',5'-O-(Tetraisopropylidisiloxane-1,3-diyl)-5-methyl-uridine

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	3',5'-TIPDS-5-Me-Ur is a modified nucleotide compound with strong stability and solubility.
Molecular Weight	500.73
Molecular Formula	$C_{22}H_{40}N_2O_7Si_2$
Form	Powder
Purity	≥95%
Applications	3',5'-TIPDS-5-Me-Ur can be used for ribonucleic acid (RNA) synthesis and modification.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
