

Product Information

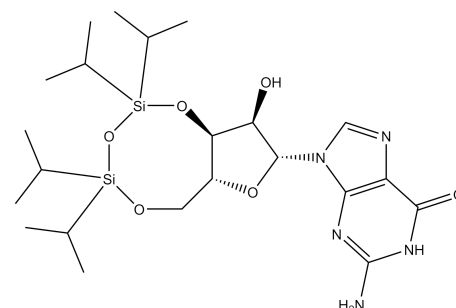

Protected nucleoside 3',5'-TIPDS-Gr

Cat. No.: X24-08-LY195

Size: 5 mg; 10 mg; 25 mg; 100 mg

Synonym: 3',5'-O-(Tetraisopropylidisiloxane-1,3-diyl)-guanosine

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	3',5'-TIPDS-Gr is a modified guanosine with the ability to change the properties of nucleic acid molecules.
Molecular Weight	525.75
Molecular Formula	C ₂₂ H ₃₉ N ₅ O ₆ Si ₂
Form	Powder
Purity	≥95%
Applications	3',5'-TIPDS-Gr can be used as a modifier of DNA and RNA.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
