

Product Information

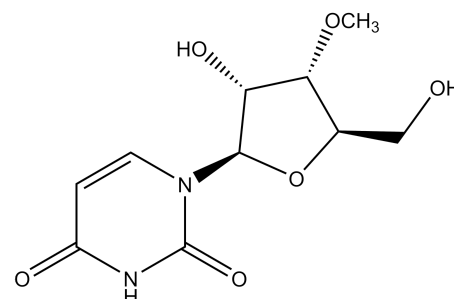

Modified nucleoside 3'-O-Me-Ur

Cat. No.: X24-08-LY219

Size: 5 mg; 10 mg; 25 mg; 100 mg

Synonym: 3'-O-Methyl-uridine

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	3'-O-Me-Ur is a modified nucleoside with a methyl group substituted for uridine.
Molecular Weight	258.23
Molecular Formula	C ₁₀ H ₁₄ N ₂ O ₆
Form	Powder
Purity	≥95%
Applications	3'-O-Me-Ur can be used to synthesize specific nucleotide sequences or for studying RNA modifications.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
