

Product Information

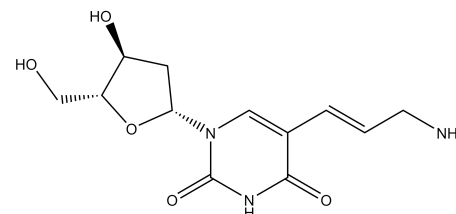

Modified nucleoside 5-amineallyl-2'-dU

Cat. No.: X24-08-LY235

Size: 5 mg; 10 mg; 25 mg; 100 mg

Synonym: 5-Amineallyl-2'-deoxyuridine

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	5-Amineallyl-2'-dU is a modified deoxyribonucleotide with amino and allyl functional groups in its structure.
Molecular Weight	283.28
Molecular Formula	C ₁₂ H ₁₇ N ₃ O ₅
Form	Powder
Purity	≥95%
Applications	5-Amineallyl-2'-dU can be used in DNA modification and functional molecular design.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
