

Product Information

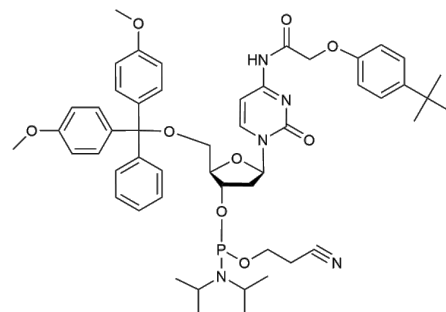

N4-Tac-DMT-dC-CE-phosphoramidite

Cat. No.: X24-09-LY346

Size: 10 mg; 100 mg; 500 mg; 1 g

Synonym: N4-Tac-5'-O-(4, 4'-dimethoxytrityl)-deoxycytidine-3'-CE phosphoramidite

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	N4-Tac-DMT-dC-CE-phosphoramidite is a nucleotide derivative that contains DMT groups and CE.
Molecular Weight	920.04
Molecular Formula	C ₅₁ H ₆₂ N ₅ O ₉ P
Purity	≥95%
Applications	N4-Tac-DMT-dC-CE-phosphoramidite is an important synthetic intermediate, often used to synthesize DNA and RNA oligonucleotides.
Storage	Store at -20°C.
