

Product Information

Luciferin-caprylate, Purity 95%

Cat. No.: X25-01-LY014

Size: 5 mg; 10 mg; 25 mg; 50 mg

Synonym: Bioluminescence; Enzyme substrates

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Luciferin-caprylate is a bioluminescent substrate and usually with enhanced water solubility and biocompatibility.
Form	Power
Purity	0.95
Applications	Luciferin-caprylate is mainly used for bioluminescence imaging and related biomedical research.
Storage	Store at -20°C.
