

Product Information

6-(*N*-Acetyl-L-alanyl) rhodamine 110, Purity 95%

Cat. No.: X25-01-LY126

Size: 100 mg; 250 mg; 500 mg; 1 g; 5 g

Synonym: Fluorogenic substrates; Enzyme substrates

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	6-(<i>N</i> -Acetyl-L-alanyl) rhodamine 110 is a fluorogenic substrate and environmentally sensitive.
Form	Power
Purity	0.95
Applications	6-(<i>N</i> -Acetyl-L-alanyl) rhodamine 110 can be used to measure oxygen levels, salinity, or cell viability.
Storage	Store at -20°C.
