

Product Information

Maltotetraose 2-aminobenzamide, Purity 95%

Cat. No.: X25-01-LY145

Size: 25 mg; 50 mg; 100 mg; 200 mg

Synonym: Fluorogenic substrates; Maltotetraose 2-AB

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Maltotetraose 2-aminobenzamide is a fluorogenic substrate and can be used to identify bacteria and other microorganisms.
Form	Power
Purity	0.95
Applications	Maltotetraose 2-aminobenzamide is often used in enzymatic studies, especially in studying enzymes related to starch and glycogen metabolism.
Storage	Store at -20°C.
