

Product Information

FITC-lysine-dextran, MW 10 kDa

Cat. No.: X22-09-ZQ283

Size: 10 mg; 50 mg

Synonym: Dextran; Lysine-dextran, FITC labeled

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	Lysine-dextran derivatives are dextran derivatives carrying both free primary amines and free carboxylates. Lysine-dextran was labeled with FITC. This product is a useful chemical compound for studying permeability and transport in cells, vessels and tissues.
Molecular Weight	10 kDa
Label	FITC
Excitation	495 nm
Emission	515 nm
Form	Yellow powder
Solubility	Soluble in water.
Applications	FITC-lysine-dextran is a useful chemical compound for studying permeability and transport in cells, vessels and tissues.
Storage	Store at room temperature.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
