

Product Information

Galβ(1-4)Glcβ-Sp2-PAA-Biotin

Cat. No.: X22-12-ZQ198 **Size:** 1 mg; 2 mg; 5 mg

Synonym: Lac-PAA-Biotin; Lac-C2-PAA-biot

This product is for research use only and is not intended for diagnostic use.

| Product Information | | |
|------------------------|--|--|
| Molecular Weight | 20 kDa | |
| Glycan Structure | Galβ(1-4)Glc | |
| Glycan MW | 385.4 Da | |
| Туре | Polymeric | |
| Label | Biotin | |
| Extent of Labeling | 20 mol% Biotin | |
| Spacer | Sp2 (OCH ₂ CH ₂ NH) | |
| Carrier | PAA | |
| Glycan-binding Protein | Glycosyl T | |
| Form | Lyophilized powder | |
| Purity | >95%, determined by HPLC and ¹ H NMR. | |
| Applications | Galβ(1-4)Glcβ-Sp2-PAA-Biotin is a useful polymer for carbohydrate-protein interactions. This product can be used in microarrays, affinity adsorbents, beads, and immunological plates. | |
| Storage | Store at -20°C. | |

| Safety Information | n |
|----------------------------------|------------------------------|
| Personal Protective Equipment | Gloves, eyeshields, N95 mask |
| WGK Germany | WGK 3 |
