

Product Information

3-O-Sulfate-GalNAc β -Sp3-PAA

Cat. No.: X22-12-ZQ808

Size: 1 mg; 2 mg; 5 mg

Synonym: D-GalNAc-3-O-sulfate-PAA; 3-suGalNAc-C3-PAA

This product is for research use only and is not intended for diagnostic use.

Product Information

Molecular Weight	20 kDa
Glycan Structure	3-O-Sulfate-GalNAc
Glycan MW	358.4 Da
Type	Polymeric
Label	Unlabelled
Extent of Labeling	20 mol% PAA
Spacer	Sp3 (OCH ₂ CH ₂ CH ₂ NH)
Carrier	PAA
Form	Lyophilized powder
Purity	>95%, determined by HPLC and ¹ H NMR.
Applications	3-O-Sulfate-GalNAc β -Sp3-PAA can be used to coat polystyrene plates as antigens or ligands for individual glycan-binding proteins or lectins in viral and bacterial compositions.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
WGK Germany	WGK 3
