

Product Information

Sialylglycopeptide

Cat. No.: X23-03-YW112

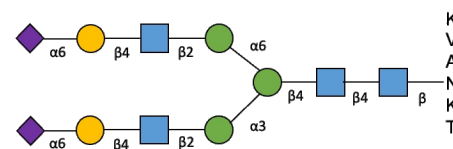

Size: 1 mg; 2 mg; 5 mg; 10 mg; 20 mg

CAS Number: 189035-43-6

PubChem Substance ID: 5360545; 56973682

Synonym: SGP

This product is for research use only and is not intended for diagnostic use.

Product Information

Molecular Weight	2865.78
Molecular Formula	$C_{112}H_{189}N_{15}O_{70}$
Form	White powder
Purity	>90%
Applications	Sialylglycopeptide is a glycopeptide that occurs naturally. In addition to providing easy access to <i>N</i> -glycan oxazolines, which are required for the production of constructs by ENGase-mediated transglycosylation, SGP has also been employed as a precursor.
Storage	Store at -20°C.

Safety Information

Personal Protective Equipment	Gloves, eyeshields, N95 mask
